9) Teacher Training :-

Once after the completion of professional training teacher enters in the teaching profession. But while teaching the training taken is not enough and he has to face different problems that may be about teaching methods, techniques, planning and managements . Not to solve such type of problems only but also to make teacher confident and to enrich his personality. Teachers training is remain fruitful. Training teachers become aware about the new educational trends, technique and methodology of teaching learning process. Through training programme he gets motivated and inspired to enrich his knowledge. This is an age of information and technology. Teacher is mediator between coming, generation teacher should have life skills to tell for coming it gets from the training. No doubt training is the orientation of teachers knowledge and skills. From that point 20 days in service training for all the teachers every year, orientation class of 60 day in service training for untrained teachers 30 day training for newly recruited teachers are some schedule training programme.
